

Lincoln County Firesafe Council Agenda

Location – River Front Park – Pavilion

Date- July 16th, 2020

Time-9:00 AM-12:00 PM

Note Taker: Logan Sandman

Introductions:

New/Old Business:

- **Lincoln County Firesafe Website**

- **Action Item:**

- Continue to brainstorm ideas on content for our new website. Compile these and we will make a comprehensive list at the next meeting. The plan, as it stands now, is to have the new Lincoln County Fire Adapted Coordinator take the lead this upcoming fall.
- Brainstorm a new name for our website. We want this site to be a one stop shop for folks in Lincoln County. Please try and come up with ideas that make sense, especially when folks are trying to find us in a search engine.

- **Lincoln County Burn Permit Website**

- We are currently looking at the MT.Gov burn permit website as a possible solution to bringing online permits to Lincoln County. The NWLO is in discussion with the provider on the feasibility of bringing this online in Flathead, Lincoln, and Sanders County. It looks like you can customize the portal to meet our needs. We do have the ability to make these permits cost free to the public. We will look to bring in a subject matter expert for discussion on what are needs are.

- **Action Item:**

- Please take the time to look this website over. Other counties are currently using this platform, so each county you explore may be set up a little differently. We need to come to a consensus on the needs of each agency to make this work. Generate your wants and needs for the website, and we will see if this is a possible solution.
<https://app.mt.gov/burnpermit/>.

- **Lincoln County Home Assessment Form**

- **Action Item:**

- Practice with the proposed new home assessment form. We need to decide on this, so we can move forward. The assessment form will be attached in the email. Use your property, or a neighbor, and be ready to provide feedback at our next meeting.

- **Subdivision Regulations Update**

- The commissioners agreed to most of the recommendations from this group. We still have some work that will be needed to finalize this. We will look for a work plan from the county. The fire risk assessment and management plan will be on the work plan.
